## Summary

---

Self-motivated Computer Science undergraduate with strong skills in front-end development using React.js, JavaScript, HTML5, and CSS3. Familiar with RESTful APIs, Git, and Agile development practices. Quick learner with a passion for building scalable and reusable web components.

## Education

---

### Babu Banarasi Das University

Sept 2022 – Present

*B.Tech in Computer Science with specialization in Cloud Computing and Machine Learning*

- Current GPA: 9.54/10.0

### Central Academy

March 2021 – May 2022

*Higher Secondary Education*

- Subjects : Physics, Chemistry, Mathematics and Computer Science
- Percentage : 85.2

## Experience

---

### Full-Stack Developer Trainee

June 2024 – Jul 2024

*Allsoft Solutions and services Private Limited*

- Developed a web-based library management system with responsive UI using HTML, CSS, and JavaScript.
- Collaborated in backend development with Node.js and Express, integrating MongoDB for database management.
- Worked in a fast-paced team environment following Agile methodology and Git version control.

## Projects

---

### MediConnect- Online Doctor Appointment Booking Web Application

[Shre1100/MediConnect](#) 

- Built responsive front-end using React.js and Tailwind CSS with dynamic routing and state management.
- Designed reusable UI components and integrated REST APIs for booking and doctor search features.
- Optimized performance and ensured mobile compatibility across devices.
- Github Link : [Shre1100/MediConnect.git](#) 

### Personal Portfolio

[Shre1100/Portfolio.git](#) 

- Created a personal portfolio to showcase skills, projects, and experience using React.js and Tailwind CSS.
- Deployed the app on Vercel with continuous integration using GitHub.

## Skills

---

**Languages:** JavaScript, HTML5, CSS3, Python, C++, C, SQL

**Frameworks & Libraries:** React.js, Node.js, Express, Bootstrap, Tailwind CSS

**Databases:** MongoDB, PostgreSQL, MySQL

**Tools & Technologies:** Git, GitHub, RESTful APIs, Vercel, Postman

**Soft Skills:** Problem Solving, Communication, Team Collaboration, Adaptability, Quick Learning

## Volunteer

---

### Distribution Management Team

March 2024

- Managed around 500+ people and ensured smooth event execution and efficient logistics.
- Gained experience in teamwork, event planning, and communication.

## Certifications

---

- The Complete Full-Stack Web Development Bootcamp by Udemy
- Postman API Fundamentals Student Expert by Postman
- Master Git and Github by Physics Wallah
